

Career Workbook

Teacher/Adviser Notes

- This can be used for students to do some more detailed research using the icould videos. They need to choose one or two videos that interest them and then work through the questions.
- They could do this individually after watching videos as a whole class or in pairs at a computer choosing videos to watch.
- This works well with year 9 especially if worksheets are collected in and displayed.

Student Worksheet

- Whatever job you do in the future you will need to gain skills and qualifications.
- Before we start can you think of:

Three skills people use in most jobs	Three qualifications you could do after Year 11	Three jobs you would love to do

- Let's watch some icould videos of people in different jobs and find out how they are learning new skills and what they love about their jobs!

What skills and attitudes are needed for this job?	What qualifications do you need to do this job? What qualifications or training is this person following or already have?
What sounds great about this job?	What sounds like a pain in this job?
What do you think this person did after Year 11?	Could this person do this job if they gave up education and training after Year 11?
